Living Lamps

Together, we'll make a
difference!

WHO ARE WE?

We are a team of eight who is working round the clock to see that women and destitute families have a space where they are able to feel safe, and have a high quality education to reach a greater future.

When we see someone in need we will reach out to lend a helping hand. we provide the slums with groceries, provisions, medical aid and all the extra help we can give.

WHAT WE ARE ABOUT

We came into existence in 2016 and we are continuing our projects until the current date. Our organization is based in India

Lamparas Vivas inspires new solutions to the critical challenges affecting the poor people in our slums. We in Lamparas Vivas support groundbreaking ideas to transform the lives of people living in abject poverty.

WHAT WE ARE ABOUT

We will not stop the help we are rendering to the slums, but we cannot do it alone. The only solution for Earth's starvation is YOU.

Our requirements are immense but no amount is too small to help the poor in our small circle.

Let your light shine before others, so that they may see your good works and give glory to your Father in heaven.
(Matthew 5:16)
